Poultry Feed

Modern commercial broilers and Layers birds are improved genetically to grow 55g day gain and produce >450 egg in 100 weeks respectively, under optimal conditions. As farmer, meat or egg producer focus is on lowering cost of production per kg meat or egg and to take advantage of complete genetical potential of the bird. Along with good health and managerial practices, well-balanced rations are essential to achieve maximum yield from birds. To get your performance in best possible way Srinivasa Farms Pvt Ltd (SFPL) offers you wide range of nutritional products, from complete feeds, concentrates and premixes for layers and broilers that can meet the demand of bird according to age and season of the bird.

SFPL Feed which is well balanced in energy, protein, amino acids, vitamins, and minerals along with best combination of feed additives to improve gut health and immunity of birds

SFPL follows standard operating procedures and well qualified nutritional, quality, and production team to ensure the finished product quality.

SFPL is equipped with sophisticated laboratory with advanced instruments to ensure the raw material and finished feeds quality which leaves the feed factory to support the customer for better flock performance.
